COVID-19 Update

To our Valued Partners,

The Cast Nylons Management Team continues to closely monitor COVID-19 developments, adhering closely to CDC guidelines, operating through task force planning, risk assessment, and readiness training to handle quickly and safely any unforeseen events. Plans are in place for personnel notification, quarantine protocols, and customer outreach should the need arise. We have 24-72 hour re-opening plans in place should any of our facilities require temporary closure for deep cleaning and we're confident our preparations will minimize any service or delivery interruptions. The Cast Nylons family remains incredibly fortunate at this time and want you to know we stay committed to keeping our essential products available to your essential business.

Thank you,

Kurt Broll

Vice President Sales & Marketing
