

CAST NYLONS LIMITED

Discover the NYCAST® Advantage

NYCAST® NYMETAL®

Cast Nylons Limited uses a proprietary process to bond metal cores to cast nylon billets to produce components that offer significant performance advantages not obtainable from either material alone. NYMETAL products can be made with various NYCAST grades and a variety of metal cores to offer superior choices for manufacturing gears, rollers, and sprockets for the toughest applications, particularly for use in the power transmission environment.

- Metal inserts for torque transmission
- Strong metal interface
- Good wear resistance
- True hybrid material
- Easy to machine
